Therefore, they do not constitute a guarantee that they will be realized. Actual results may differ from such estimates due to unforeseen circumstances.

## 4. Review of Operations

During the term under review (April 1, 2012 to March 31, 2013), Japanese medical treatment fees were revised upward in April 2012 to ensure delivery of emergency and perinatal care and improve home care. This was in line with the government's 2025 future vision of medical/long-term care services which was presented in the Comprehensive Reform of Social Security and Taxes. Internationally, although demand for medical devices in the U.S. and emerging countries remained solid, financial anxiety created difficult market conditions in Europe.

Under these circumstances, the Company implemented key strategies including expanding and strengthening core business areas and strengthening technological development capacity under its SPEED UP III 3-year Business Plan of which the final year is the term under review.

The Company is continuing to introduce products that support medical safety in the neonatal and pediatric intensive care. It launched a new stylish electroencephalograph with aEEG\*, a new ECG electrode for neonates, and an oxygen mask with CO<sub>2</sub> monitoring for infants. The Company also released its first waterproof transmitter and a new ECG for emerging markets which was developed and manufactured in China. Nihon Kohden also strengthened its international business structure. In China, the Company consolidated its three subsidiaries which were engaged in research and development, manufacturing, and sales into one subsidiary. It established Nihon Kohden Middle East in Dubai and acquired Defibtech, LLC, a U.S. manufacturer of resuscitation equipment.

As a result, overall sales during the term under review increased 9.8% over FY2011 to ¥132,538 million and operating income increased 12.1% to ¥13,484 million. Ordinary income increased 20.2% to ¥14,658 million with favorable currency effects and net income increased 20.1% over FY2011 to ¥9,151 million.

\* aEEG (amplitude-integrated electroencephalography) is a time-compressed EEG trend graph which is used in data analysis for neonatal convulsion and neonatal hypoxic-ischemic encephalopathy.

[Sales by region]

**Japan:** Sales in the hospital market remained favorable and AED sales increased in the PAD market. This resulted in increased sales of all product categories. Steady demand in the private hospital market and the public hospital market supported strong sales of Physiological Measuring Equipment and Patient Monitors. As a result, domestic sales increased 10.5% over FY2011 to ¥110,215 million.

**International:** Sales of Patient Monitors and hematology analyzers showed strong growth. Sales of Physiological Measuring Equipment also increased. In the Americas, sales in the U.S. showed strong growth while sales in Latin America decreased slightly. Sales in Europe decreased due to the difficult market conditions and unfavorable foreign currency impacts. In Asia, sales in China, India, and Southeast Asia showed strong growth. As a result, international sales increased 6.2% over FY2011 to ¥22,322 million.

[Sales by product category]

**Physiological Measuring Equipment:** In Japan, sales increased in all products including EEGs, ECGs, polygraphs for cath lab, and diagnostic information systems. Internationally, sales of EEGs increased in all areas, while sales of ECGs were weak. Overall, sales increased 10.4% over the previous fiscal year to ¥33,871 million.

**Patient Monitors:** In Japan, sales of Patient Monitors increased significantly, supported by good sales of bedside monitors and central monitors. Consumable sales such as sensors also increased robustly. Outside Japan, sales in the Americas and Asia showed strong growth, while sales in Europe decreased. In the U.S., strengthening of relationship with major GPOs brought acquisition of new customers. Overall, sales increased 10.9% over the previous fiscal year to ¥43,661 million.

**Treatment Equipment:** In Japan, AED sales showed strong growth as three new models were introduced. Sales of pacemakers and ICDs decreased due to downward revision of reimbursement prices. Sales of vagus nerve stimulation therapy systems and irrigation catheters also increased. Internationally, although sales of defibrillators for hospitals decreased, sales of AEDs in the hospital market and the ambulance market increased. Demand for AEDs also increased in Taiwan as the government plans to allow public access defibrillation. Overall, sales increased 6.5% over the previous fiscal year to ¥21,604 million.

**Other Medical Equipment:** In Japan, sales of hematology analyzers increased as new models were introduced. Sales of locally purchased products also increased. Internationally, sales of hematology analyzers showed strong growth, while sales of locally purchased products decreased. Overall, sales increased 9.9% over the previous fiscal year to ¥33,400 million.

## 5. Consolidated Sales Results by Product Category

Europe	5,612	-12.1
Asia	7,560	+11.3
Other	1,059	+20.2

## 6. Consolidated Forecast for FY2013

In Japan, acute care hospitals are likely to continue stable capital spending due to progress in the regional medical care revival plan, for which the Japanese government provides necessary funding in the supplementary budgets.

Internationally, demand for medical equipment will remain steady in emerging countries and the U.S., while there is concern about the impact of financial crisis in Europe. In the medical equipment industry, competition among companies will intensify domestically and internationally due to increasing cross-border M&A deals and new entrants.

Under these circumstances, Nihon Kohden will start its new 4-year business plan, Strong Growth 2017 in order to achieve sustained group growth and enhance its corporate value. In Japan, the Company aims to expand sales in acute care hospitals since they are expected to continue stable capital spending. The Company will introduce new competitive products as well as provide IT system solutions. Internationally, the Company aims to expand its sales in the Americas and Asia where it strengthened its business structure last year by establishing a sales subsidiary and acquiring Defibtech, LLC.

The Company forecasts overall sales, operating income, ordinary income and net income for FY2013 to be ¥145,000 million, ¥15,000 million, ¥15,000 million and ¥9,500 million, respectively.

The Company's forecast for FY2013 is based on an exchange rate of 90 yen to the dollar and 118 yen to the euro.

#### (4) Notes on Business Combination

(Business combination through acquisition)

##### 1. Overview of business combination

###### (1) Name and operations of acquired company

Name of acquired company	Defibtech, LLC
Business	Manufacturer of resuscitation equipment

###### (2) Main reason for business combination

Reinforcement of technological capability in the resuscitation field and expansion of Nihon Kohden's business in the U.S. Market

###### (3) Date of business combination

November 30, 2012

###### (4) Legal form of business combination

Acquisition of ownership for cash

###### (5) Name of company after business combination

Defibtech, LLC

###### (6) Share of voting rights acquired

100%

###### (7) Basis of determination of acquiring company

Acquisition of ownership for cash by RESUSCITATION SOLUTION, INC., one of NihonKohden's subsidiaries.

##### 2. Period of the acquired company's fiscal year included in the consolidated financial statements

From December 1, 2012 to December 31, 2012

##### 3. Acquisition cost for the acquired company and breakdown thereof

Consideration for acquisition	3,905 million yen
Expenses directly incurred in the acquisition: advisory fees, etc.	201 million yen
Acquisition cost	4,107 million yen

##### 4. Contents of the condition clause for the acquisition cost under an acquisition agreement and its accounting method hereafter

Nihon Kohden will make milestone payments based on the achievement of performance goals after the acquisition. If additional payment for the acquisition cost occurs as mentioned above, the acquisition cost will be revised assuming that the additional payment had been made at the time of acquisition and the Company will revise the amount of goodwill and the amortization of goodwill.

##### 5. Amount of goodwill incurred, reasons and amortization method

###### (1) Amount of goodwill

1,490 million yen

###### (2) Reason for goodwill

Excess earnings expected to be delivered through the future development of the business.

###### (3) Method and period of amortization

Straight-line method with 20 years

##### 6. Amounts of assets and liabilities acquired on the day of the business combination

Current assets	587 million yen
Noncurrent assets	15 million yen
Total assets	603 million yen
Current liabilities	274 million yen
Total liabilities	274 million yen

7. Amounts allocated to intangible assets other than goodwill, and their breakdown, and weightedaverage amortization period by major category

Technology	672 million yen	Amortization period 20 years
Customer list	645 million yen	Amortization period 10 years
Patent	294 million yen	Amortization period 10 years
<hr/>		
Total intangible assets other than goodwill	1,612 million yen	Weightedaverage amortization period 12 years

8. Approximate amounts of impact on the consolidated statements of income for the fiscal year ended March 31, 2013, assuming that the business combinations had been completed on the commencement date of the fiscal year

Net sales	1,962 million yen
Operating income	116 million yen
Ordinary income	98 million yen
Net income	98 million yen

(Calculation method of the approximate amounts)

The effect of the approximate amounts is calculated as the difference between the revenues and profit and loss information that has been calculated by assuming the business combination was completed on the first day of the consolidated fiscal year, and the revenues and profit and loss information reported in the consolidated statement of income of the Company.

The amount of goodwill amortization was calculated assuming that the goodwill recognized at the time of the business combination was recognized at the first day of the consolidated fiscal year ended March 31, 2013. A certification of audit has not been received for this note.
