Response to Multiple Race Conditions in  
Various Unified Extensible Firmware Interface (UEFI) Implementations of Vulnerability

Dear Customers,

Nihon Kohden has analyzed the multiple race conditions in various Unified Extensible Firmware Interface (UEFI) implementations of vulnerability (CVE-2021-33164) which was released on November 8, 2022. We have been investigating the impact of the vulnerability on the software and certain system components of Nihon Kohden's products.

Nihon Kohden will continue monitoring the market situation of any vulnerability and share any information on the Nihon Kohden global website if we have any updates.

Please feel free contact us at the following URL with any questions and concerns you have.
